COMPARATIVE DEMOGRAPHIC ESTIMATES

2011-2015 American Community Survey 5-Year Estimates

Geographic areas are based on the geographic boundaries of the data year. Current year comparisons with past-year estimates are not re-tabulated to the current year's geographies; rather, the comparison is with the existing geography of each data year. Statistically significant change from prior years' estimates could be the result of changes in the geographic boundaries of an area and not necessarily the demographic, social, or economic characteristics. For more information on geographic changes, see: <https://www.census.gov/programs-surveys/acs/guidance.html>.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Tell us what you think. Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Since the 5-year data do not benefit from data quality filtering, comparisons are only made for populations of 5,000 or more.

Subject	Fayetteville city, North Carolina		
	2011-2015 Estimates	2006-2010 Estimates	Statistical Significance
SEX AND AGE			
Total population	202,521	198,875	*
Male	49.0%	49.2%	
Female	51.0%	50.8%	
Under 5 years	8.1%	8.2%	
5 to 9 years	6.8%	7.0%	
10 to 14 years	6.1%	6.5%	
15 to 19 years	6.4%	7.9%	*
20 to 24 years	11.0%	11.5%	*
25 to 34 years	18.1%	16.1%	*
35 to 44 years	11.3%	12.3%	*
45 to 54 years	11.2%	12.3%	*
55 to 59 years	5.4%	5.0%	*
60 to 64 years	4.7%	3.9%	*
65 to 74 years	6.0%	5.3%	*
75 to 84 years	3.7%	3.1%	*
85 years and over	1.1%	1.0%	
Median age (years)	30.5	29.8	*
18 years and over	75.4%	74.2%	*
21 years and over	70.4%	68.1%	*
62 years and over	13.4%	11.4%	*

Subject	Fayetteville city, North Carolina		
	2011-2015 Estimates	2006-2010 Estimates	Statistical Significance
65 years and over	10.9%	9.3%	*
18 years and over	152,798	147,622	*
Male	48.6%	48.6%	
Female	51.4%	51.4%	
65 years and over	21,977	18,527	*
Male	41.7%	40.1%	*
Female	58.3%	59.9%	*
RACE			
Total population	202,521	198,875	*
One race	94.6%	94.3%	
Two or more races	5.4%	5.7%	
One race	94.6%	94.3%	
White	46.6%	46.6%	
Black or African American	41.4%	40.8%	
American Indian and Alaska Native	0.9%	0.8%	
Cherokee tribal grouping	0.1%	(X)	
Chippewa tribal grouping	0.0%	(X)	
Navajo tribal grouping	0.0%	(X)	
Sioux tribal grouping	0.0%	(X)	
Asian	2.9%	2.7%	
Asian Indian	0.3%	(X)	
Chinese	0.3%	(X)	
Filipino	0.6%	(X)	
Japanese	0.2%	(X)	
Korean	0.7%	(X)	
Vietnamese	0.3%	(X)	
Other Asian	0.5%	(X)	
Native Hawaiian and Other Pacific Islander	0.3%	0.4%	
Native Hawaiian	0.1%	(X)	
Guamanian or Chamorro	0.2%	(X)	
Samoan	0.1%	(X)	
Other Pacific Islander	0.0%	(X)	
Some other race	2.5%	3.1%	*
Two or more races	5.4%	5.7%	
White and Black or African American	1.8%	1.3%	*
White and American Indian and Alaska Native	0.7%	1.0%	*
White and Asian	0.8%	0.7%	
Black or African American and American Indian and Alaska Native	0.4%	0.8%	*
Race alone or in combination with one or more other races			
Total population	202,521	198,875	*
White	50.9%	50.7%	
Black or African American	44.7%	44.0%	
American Indian and Alaska Native	2.5%	3.2%	*
Asian	4.3%	3.8%	*
Native Hawaiian and Other Pacific Islander	0.8%	0.7%	
Some other race	3.0%	4.1%	*
HISPANIC OR LATINO AND RACE			
Total population	202,521	198,875	*
Hispanic or Latino (of any race)	11.4%	9.2%	*
Mexican	3.7%	3.1%	*
Puerto Rican	4.0%	3.3%	*
Cuban	0.4%	0.2%	

Subject	Fayetteville city, North Carolina		
	2011-2015 Estimates	2006-2010 Estimates	Statistical Significance
Other Hispanic or Latino	3.2%	2.5%	*
Not Hispanic or Latino	88.6%	90.8%	*
White alone	39.9%	42.6%	*
Black or African American alone	40.2%	40.0%	
American Indian and Alaska Native alone	0.7%	0.7%	
Asian alone	2.9%	2.6%	*
Native Hawaiian and Other Pacific Islander alone	0.3%	0.4%	
Some other race alone	0.4%	0.3%	
Two or more races	4.3%	4.3%	
Two races including Some other race	0.1%	0.1%	
Two races excluding Some other race, and Three or more races	4.2%	4.2%	
Total housing units	91,987	84,842	*
CITIZEN, VOTING AGE POPULATION			
Citizen, 18 and over population	147,792	142,986	*
Male	49.0%	49.0%	
Female	51.0%	51.0%	

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The definitions of the metropolitan and micropolitan statistical areas for the 2013 American Community Survey are based on the commuting patterns identified in the 2010 Census. Estimates prior to 2013 are based on the results of the 2000 Census. Statistically significant change from prior years' estimates could be the result of changes in the metropolitan geographic definitions and not necessarily the demographic, social or economic characteristic. For more information, see: Metropolitan and Micropolitan Statistical Areas.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2011-2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2011-2015 American Community Survey 5-Year Estimates

An * indicates that the estimate is significantly different (at a 90% confidence level) than the estimate from the most current year. A "c" indicates the estimates for that year and the current year are both controlled; a statistical test is not appropriate. A blank indicates that the estimate is not significantly different from the estimate of the most current year, or that a test could not be done because one or both of the estimates is displayed as "-", "N", or "(X)", or the estimate ends with a "+" or "-". (For more information on these symbols, see the Explanation of Symbols below this table.)

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-

ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
